STEPS TO SECURE LIGHTS.

At the regular quarterly session of the Council held Thursday Hon. John L. Mercer in his report quoted elsewhere, recommended that steps be taken to secure lights for the streets of Williamsburg. This will be grand, good news to the citizens of this city, who will at all times stand shoulder to shoulder with their Chief Executive and the City Council in their untiring efforts to improve and modernize the town. Before many months the are light may be casting its rays athwart our streets, our business houses, the College, the Courthouse and depot may be brilliant with the incandescent lamp. The members of the Council are bent on having the streets lighted, and if it is found that an electric light plant cannot be located here, will take the next best thing—the improved gasoline lamp. In the meantime let the people of this city rally to the support of their Council that they may see we will support them liberally.

Lillian, the little 3-year-old daughter of Mr. and Mrs. Allen Casey died Tuesday, after an illness of only a few days. The funeral services were held at the residence Wednesday at 4:30 p. m., Rev. J. NARROW ESCAPE FROM DEATH.

Mr T. F. Bondurant Painfully Wounded by a Gunshot.

There was considerable excitement on West Duke of Gloucester street Tuesday at 11 o'clock, when the residents of that portion of the city were startled by the report of a gun, followed by the screams of several ladies. Soon a large crowd had gathered at the grocery store of Mrs. Della Braithwaite, and it was learned that Mr. T. F. Bondurant, a tinner by trade, had accidentally shot himself in the hand and face. Mr. Bondurant had borrowed a double-barrelled breechloading shot gun from Mrs. Braithwaite, preparatory to taking a squirrel hunt. He was standing in the store with his hand resting on the gun, conversing with Mr. Jester, when in some manner one cartridge, loaded with No. 2 shot, exploded, tearing away the thumb and terribly lacerating the back of his left hand. The right side of his face received several shot, but making only a flesh wound. When the crowd gathered Bondurant was lying on the floor in a pool of blood, and was half dazed by the shock. Dr. Leonard Henley, of this city, and Dr. Nash, of the Hospital, were hastily summoned, and did all they could to make the sufferer as comfortable as possible. The wounded man was taken to his home near by, where later in the day Dr. C. B. Brock, of the Hospital staff and Dr. Henry Wise, of this city, performed an operation on the hand, removing the thumb and one finger. The patient is doing well.

Mr. Bondurant has a wife and two little children dependent upon him, but the good people of Williamsburg will see that they lack for nothing while the husband is recovering from his terrible injuries.

Our City Fathers in Session.

The City Council met at the Courthouse Thursday. The main object being the laying of the levy for the ensuing year.

The Mayor's report was read and contained some recommendations that are of vital importance to the people of this city. He said in part: "I submit herewith a communication from the Standard Oil Co. in reference to lighting our streets. It seems to me that nothing would add more to the attractions of the city, or in my opinion, is of more vital importance than that of street lighting. If we cannot get the whole number of lamps for this year, I would recommend that we purchase at least 25 of them with the necessary fuel, and add to this number as we can, and in a short while we would have the city well lighted."

In acting upon this recommendation Dr. Garrett suggested that a committee be appointed to correspond with the Standard Oil Co., and also with parties concerning the cost of an electric light plant. Mr. H. D. Cole and Dr. Garrett in the next ten days will look into the matter thoroughly to see what can be done to secure electric lights.

The Council created the office of Fire Commissioner and Police Justice with a salary of \$100. The Chairman of the Street Committee was allowed \$50 for

his services to the town and \$1,000 were appropriated for schools, \$100 for poor, \$300 for streets. The total amount of real estate and personal property amounted to \$379,094.28. The following table may be of interest to our readers:
